

Mukesh Kanna

FULL STACK DEVELOPER — MERN STACK | REACT.JS | NODE.JS | EXPRESS.JS | MONGODB

+91 9944898317 | mukeshkannamannai04@gmail.com | Chennai, Tamil Nadu | linkedin.com/in/mukeshkanna14

EXECUTIVE SUMMARY

Entry-level Full Stack Developer specializing in MERN stack development with hands-on experience building responsive, database-driven web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Skilled in developing REST APIs, CRUD operations, authentication, authorization, API integration, database management, Redux state management, debugging, and application deployment. Completed an AI + MERN Stack Developer program with practical experience developing end-to-end applications and a strong foundation in Data Structures and Algorithms. Seeking an opportunity to contribute technical problem-solving skills and grow as a Full Stack Developer in a professional IT environment.

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux, Tailwind CSS, Vite.js

Backend Technologies: Node.js, Express.js, REST APIs, Axios

Authentication & Security: Firebase Authentication, JWT, Authorization, Role-Based Access Control, Protected Routes

Tools: Git, GitHub, Postman, VS Code, npm, Render, Vercel

PROJECTS

FULL STACK BLOG & PORTFOLIO PLATFORM

Technologies: React.js, Node.js, Express.js, MongoDB Atlas, Firebase Authentication, REST APIs, Axios, Render

- Developed a full-stack blog and portfolio platform with user registration, login, blog browsing, content management, and user interactions.
- Built responsive React.js interfaces and integrated frontend components with Express.js REST APIs.
- Implemented CRUD operations and MongoDB Atlas integration for persistent data management.
- Integrated Firebase Authentication and implemented admin-only publishing with authorization and role-based access control.
- Tested API workflows and deployed the backend application using Render.

BULK EMAIL MANAGEMENT APPLICATION

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, XLSX, Axios, REST APIs

- Developed a web application for importing Excel recipient lists and managing bulk email workflows.
- Tested APIs using Postman and maintained source code using Git and GitHub.
- Implemented XLSX processing, data validation, authentication, email processing, and history tracking.
- Developed JWT-protected REST APIs using Node.js and Express.js.
- Integrated frontend and backend services using Axios and handled application errors.

SHOPHUB E-COMMERCE APPLICATION

Technologies: React.js, Redux, Node.js, Express.js, MongoDB, REST APIs, Axios

- Developed a MERN-based e-commerce application with product browsing, shopping cart, checkout, and order management.
- Implemented Redux state management for shopping cart functionality.
- Developed REST APIs for product and order operations using Node.js and Express.js.
- Debugged frontend, Redux, API, and database integration issues.
- Integrated MongoDB for persistent product and order data.

PROFESSIONAL EXPERIENCE

DCB BANK — OPERATIONS 2023 – December 2024 | Chennai

- Managed daily banking operations while maintaining accuracy, documentation, process compliance, and timely service delivery.
- Handled customer and operational requests while working with structured data and internal systems.

- Developed transferable skills in problem solving, attention to detail, communication, and process management.

PROFESSIONAL TRAINING

AI + MERN STACK DEVELOPER PROGRAM - Error Makes Clever Institution

- Completed hands-on training in React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, authentication, CRUD operations, Git/GitHub, and deployment.
- Applied technical concepts through practical full-stack application development.

PROMPT ENGINEERING COURSE - Error Makes Clever Institution

- Completed training in prompt engineering and practical techniques for creating effective prompts for AI-based applications and workflows.

EDUCATION

B.E. MECHANICAL ENGINEERING | 2023 CGPA: 7.69

Languages: English | Tamil
